

My Home, **My** Life

Welcome

My Home, My Life

At Endeavour Foundation, we believe everyone has the right to the safety and comfort that comes from having a permanent place to call home. The My Home, My Life initiative has been launched to address the chronic suitable housing shortage facing people with disability.

We know a home is about more than bricks and mortar.

A home is a sanctuary.

It's a place where we can spend time with our friends, family and loved ones, or simply enjoy time to ourselves.

Our home is a symbol of our individuality and independence.

"My Home" represents the ownership you experience and your feeling of safety.

"My Life" represents the independence and choice you have as you live your best life with support when you need it.

3 year initiative

Almost **\$35M** in new and refurbished homes

59  new homes

26  refurbished homes

Providing homes for **352**  people with disability

Locations

Based on the growing need for Specialist Disability Accommodation, Endeavour Foundation is building and significantly improving homes in the following locations:

Brisbane	Rockhampton
Cairns	Stanthorpe
Gladstone	Sunshine Coast
Gold Coast	Toowoomba
Ipswich	Townsville
Logan	Warwick
Mackay	Wide Bay
Moreton Bay	

My Home

A platinum standard

Our homes meet the platinum standard of the Livable Housing Australia Guidelines and are built above and beyond what is required by legislation for Specialist Disability Accommodation (SDA). We build fully accessible housing under the NDIS Specialist Disability Accommodation Design Standard, to ensure our homes meet your needs at every life stage.

The right home

The Endeavour Foundation home portfolio can provide the right home for everyone, offering units, duplexes, townhomes as well as 3, 4 and 5 bedroom houses.

Location

Our new and refurbished homes are centrally located, close to services and local community amenities, so you can enjoy community connection and inclusion. We purchase land based on access to public transport and within a 5km radius of Endeavour Foundation work and community services.

Lifestyle

We design socially inclusive spaces and private retreats. You have the flexibility of retreating to your own personal patio or large bedroom with sitting space if you need some time out, whilst still giving you the opportunity to enjoy the company of housemates or guests in the large backyard, alfresco area or open plan living space.

Technology

Modern safety features, including Tunstall Assistive Technology, aid independence and offers peace of mind for you and your loved ones. Help buttons are installed in each bedroom, bathroom and living space, so assistance can be provided when required. Smart Home ducted air-conditioning systems with individual room control are also on offer, as well as the provision for additional bespoke assistive technology as required.

Environmentally friendly

To deliver energy efficiency and reduce power consumption expenses, our homes offer modern sustainability features including solar hot water systems and 6kW solar panels.

My Life

Support when you need it

It's your life, and we're here to help give you the choice and control to make it what you want it to be.

If it matters to you, it matters to us.

Our staff are passionate, consistent and dedicated to giving you the level of security and support that makes living out of home possible.

When you move in with us, you get independence and your family gets the confidence that comes with 24/7 support.

Home Designs

Three distinct and modern design themes have been selected for our homes because everyone deserves to live somewhere beautiful. Each design can be applied up to three times in one location, providing completely different internal and external aesthetics for townhomes, units, duplexes, and house floor plans.

It's your choice

Through consultation with people with disability, we've co-designed our home plans with you in mind. Themes, furniture and colour preferences are all part of the discussion with new residents during the build phase. We want you to feel comfortable in the space right from the moment you move in.

Modern Contemporary

A defining point of modern contemporary design is that it's 'of the moment.' This style is defined by strong lines, neutral colours and minimalism, with splashes of brighter colour for emphasis and contrast. Neutral shades with bold and vibrant solid colours will be used to create a happy and uplifting feeling in our modern contemporary homes.

Hamptons Coastal

Centred around a neutral coastal colour palette the Hamptons coastal style will make you feel calm and at peace. Whites and timbers, neutrals like cream, sand and ivory, as well as the navy and light blue tones that are classic features of this design, all work in harmony to create a truly Hamptons style home.

Country Rustic

Casual and cosy is the best way to describe the country rustic style. You can expect to see a colour palette of white, cream and other neutral shades with accents of striped/checked fabrics, or floral upholstery to add to the charm and nostalgia of the country look.

Endeavour Foundation has been a part of local communities for nearly 70 years, supporting people with intellectual disability to live, learn, work and flourish according to their own interests and priorities.

We'll collaborate with you to imagine the possibilities and then work together to make them happen.

My Home, My Life initiative

In Australia there is a chronic shortage of appropriate housing for people with disability.

Endeavour Foundation's My Home, My Life initiative aims to shed light on the housing situation facing Australians with disability and takes real action to tackle the housing shortfall. We are investing almost \$35 million over the next three years to build accessible homes and refurbish existing homes.

And this is just the beginning.
