

# Staying in place

There is a virus that is making people sick.

It is called **Coronavirus**.

To stop the virus, we need to stay away from other people.

# Staying in place

**Closed**

**Cinema**

**Cafe**

**Shops**

Many of your favourite places are now closed because of the virus

So the government has asked us to stay at home

We know this will make you sad because you cannot have any visitors.

# Staying in place

There are many fun things you can do while you are home.

# Staying in place

But you cannot go out

If you go out, we need to ask you some very important questions

The questions are to make sure you are safe and do not have coronavirus.

**We can be safe and happy at home!**
