Ways to Get Involved 2026-27

Supporting Endeavour Foundation is not only an opportunity to create meaningful impact for people with intellectual disability — it's also a powerful way to strengthen your business through employee engagement, community connection, and shared values.

There are many exciting ways to get involved beyond your day-to-day partnership with us, each offering a simple and impactful way to contribute to more inclusive communities while delivering positive outcomes for your team and your brand.

Workplace Giving

Workplace giving offers a simple, tax-effective way to make a real difference—funding vital programs and resources not otherwise supported—from employment support and learning tools to suitable housing. By encouraging and matching staff payroll contributions, you can help empower people with intellectual disability to live, learn, work and thrive on their own terms.

Corporate Volunteering (Paid Experiences)

Looking for an enriching team-building activity with lasting impact? Choose an Endeavour Foundation corporate experience. By stepping into one of our disability social enterprise or community support sites, your staff can build stronger relationships while gaining fresh perspective and purpose. Experiences are available nationally.
